

MercuryPay[®]

A Vantiv Product

Fast, reliable and secure payments

Get fast, reliable, and secure payment processing with MercuryPay, a Vantiv product, for your Odoo POS, Odoo mobile application, and website in U.S. and Canada. Enjoy reliable uptime, real time transaction viewing, next day funding* capability and promotional payment options.

KEY FEATURES:

FREE card data encryption: Cardholder data is encrypted at the time of swipe throughout the entire transaction, reducing the risk of a data compromise.

Tokenization: Sensitive cardholder data is replaced with a token for secure authorization services such as recurring payments and tip adjustment.

Competitive rates: Receive a free, transparent, noobligation rate quote. No need to buy additional payment software or gateway fees.

Award winning 24/7 U.S. based support: Support is available via phone or email 24/7, including holidays.

Proactive troubleshooting: Minimizes processing problems such as open batches or multiple voids by providing using Customizable MercuryAlerts™.

MercuryView[®]: Free online portal simplifies business management with real-time, customized, transaction reporting. Enhanced reporting features help manage finances and streamline bookkeeping.

ADD-ON FEATURES

VirtualTerminal™: Web and mobile payment processing for offsite sales.

Accelerated Funding*: Next Day Funding.

Vantiv Integrated Payments and Odoo are proud to offer you a \$500 gift card towards encrypted payment hardware in return for a processing agreement
