# Setting checklist !

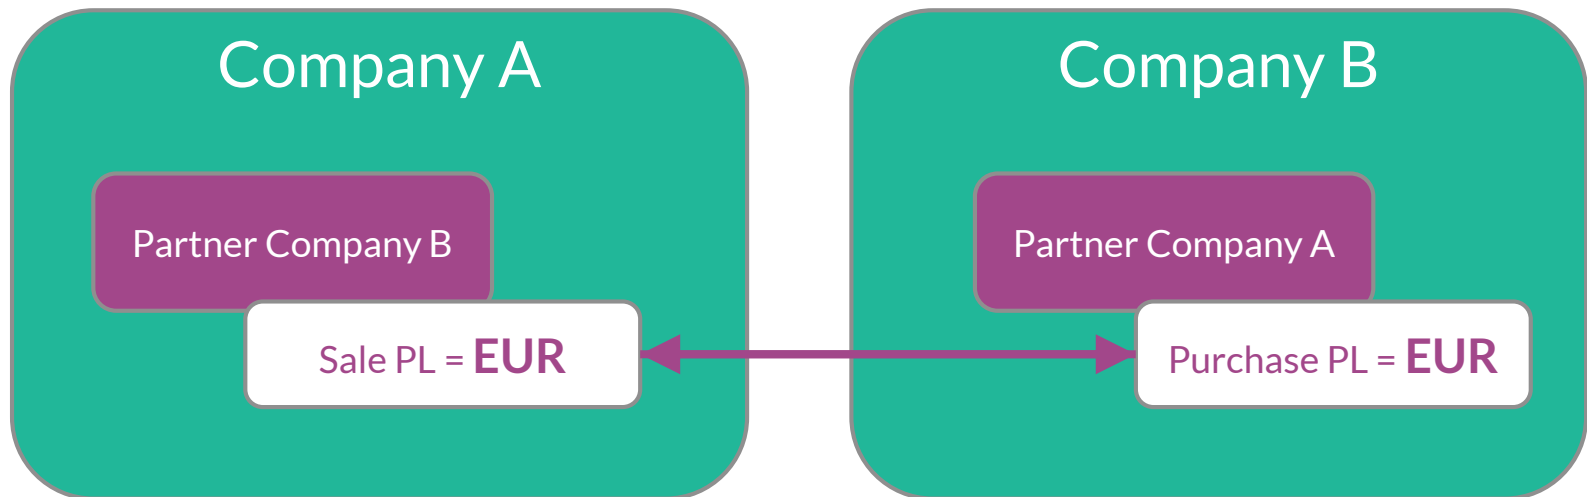

---

- ✓ Multi-company classical configuration
- ✓ Activate Inter Company
- ✓ Set the expected behaviour in each company
- ✓ In multi-currency : Set the pricelists on the partners  
⇒ SO and PO should have the same currency

# Pricelist setting

---

- ✓ Make sure that the pricelists used in your operation are set in the same currency

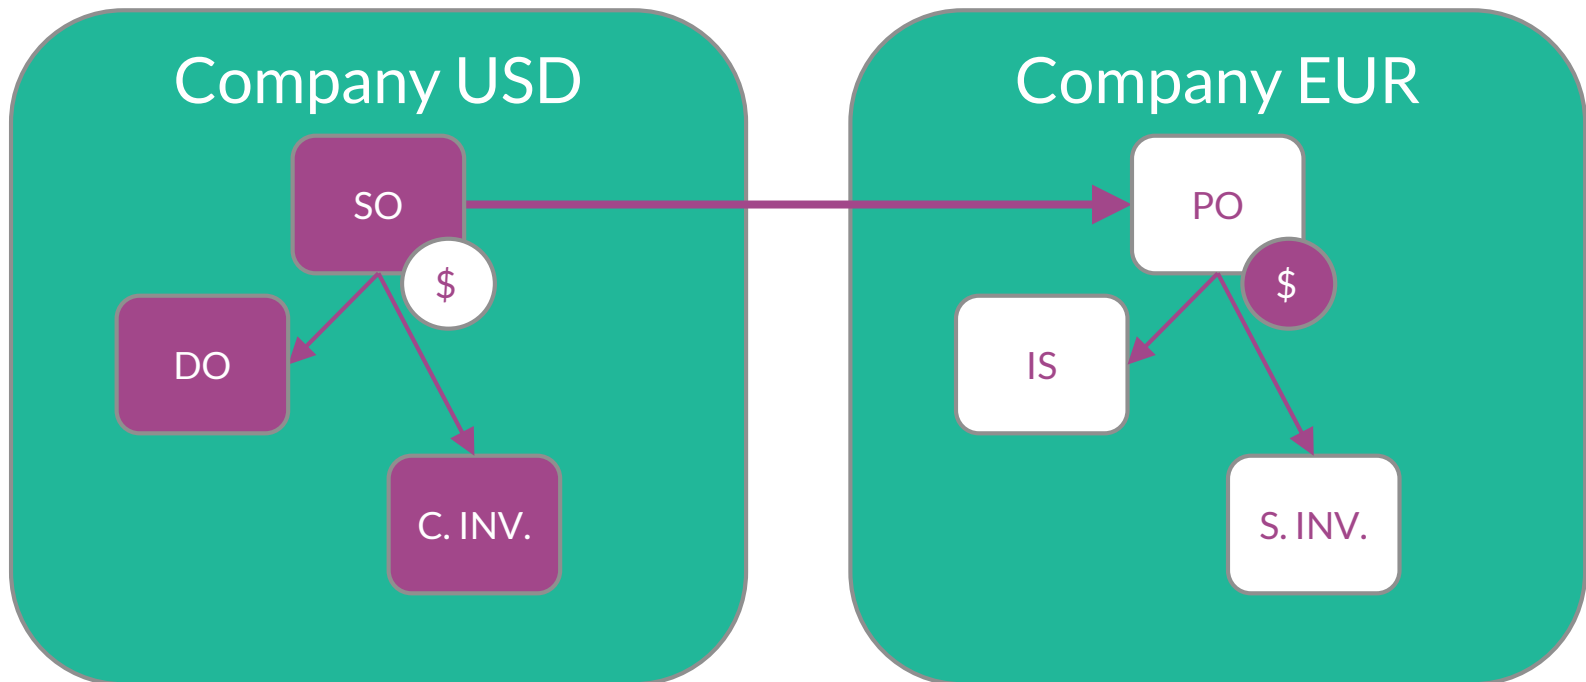

# Demonstration

...Inter Company exchanges in a multi currency context.

# Context

---

- ✓ 2 Companies
- ✓ Different currencies
- ✓ Inter-company from the SO/PO

# Benefits

---

- ✓ No double encoding
- ✓ Flexibility allowing complexity in your process

# Conclusion

---
