Open2bizz

Since 2010

6 employees

50 + projects odoo

Consultancy

Hosting

Support – ITIL

Custom development

## Problems & Goals

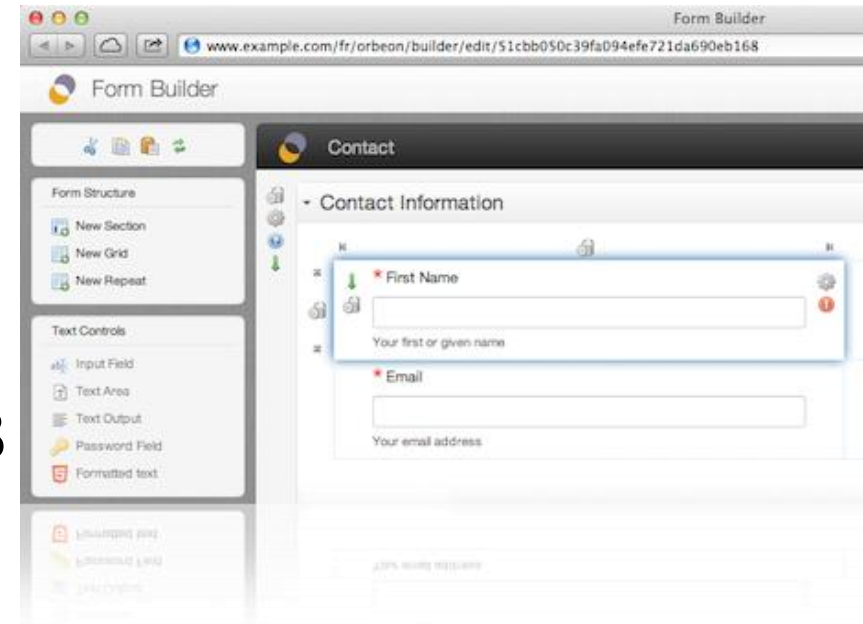

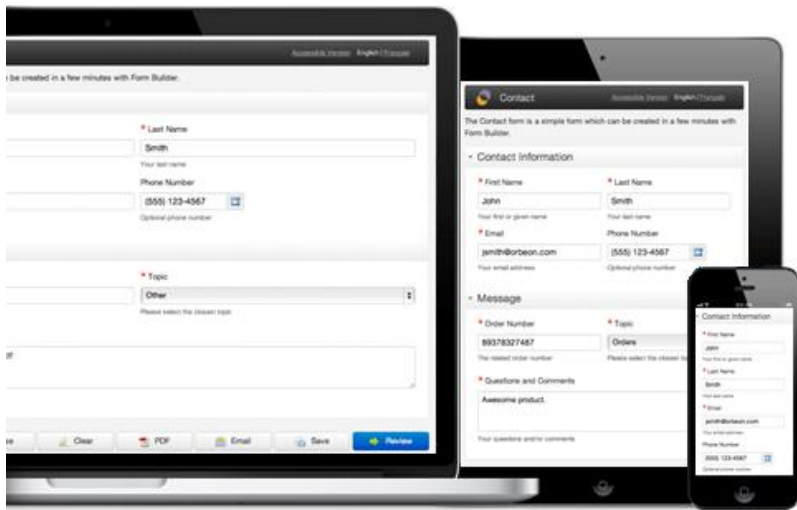

- Migrating from OpenERP 6/7
- Own modules (not Oemedical)
- Integration (3d party software)
- Simple & flexible
- Modular approach

## Business Case / Design

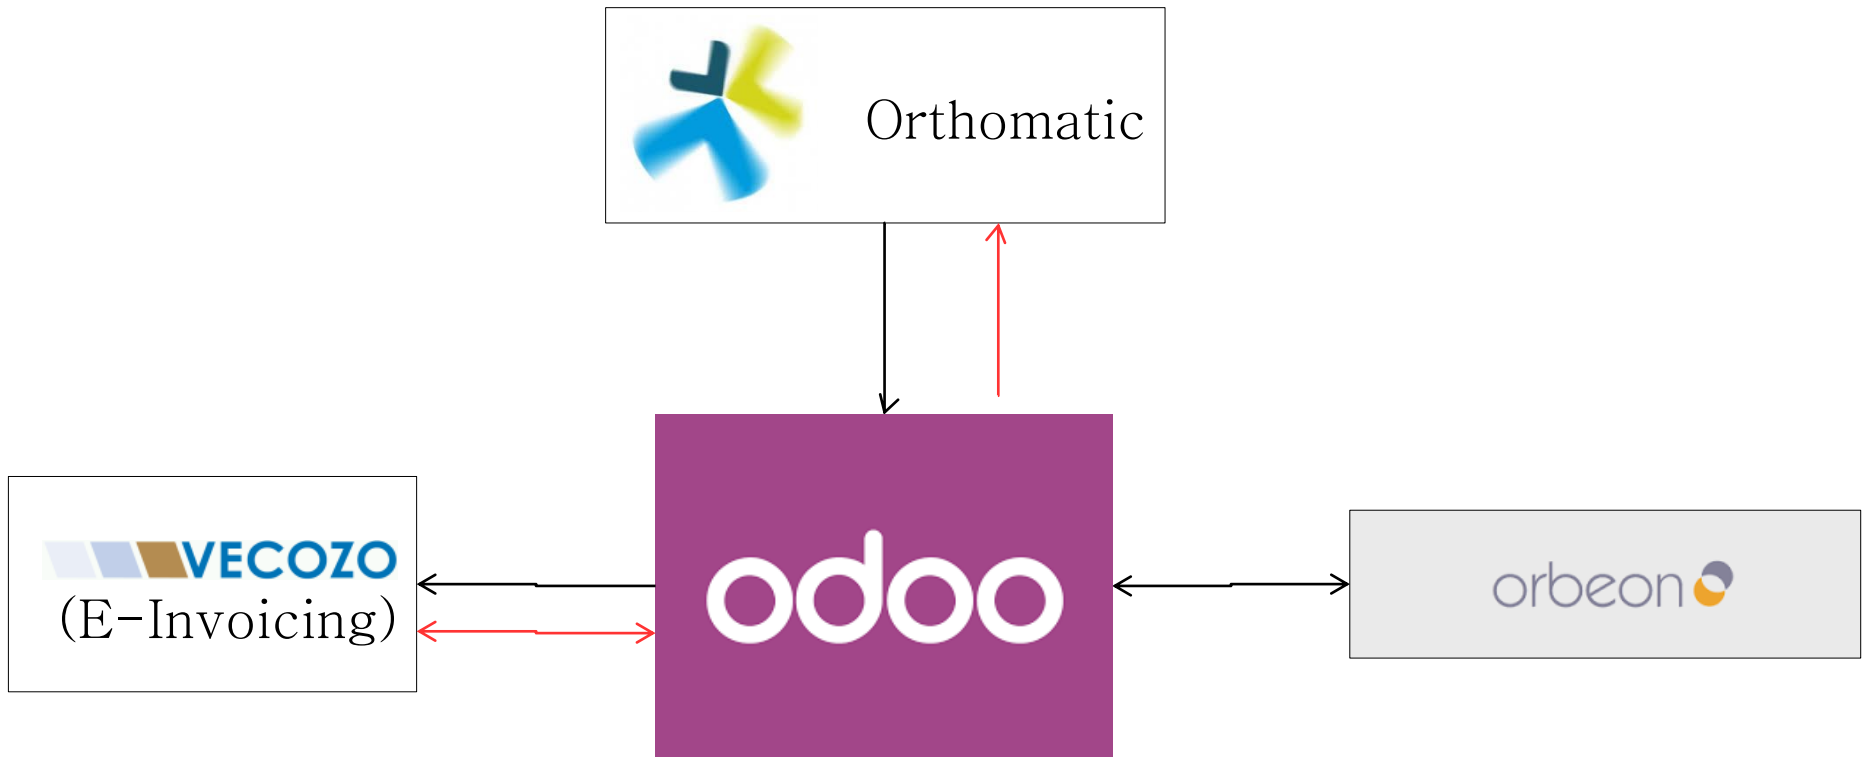

- Health care / Orthopedic companies
- A lot of data
- Almost no standardisation
- Complex processes
- Existing paper files?

## Orbeon?

- (x)Forms application
- Builder
- Runner (deployment)
- persistence layer / All data in DB
