Introduction

Meant for project planners.

Managers can easily plan the occupation of their collaborators by using the new Odoo grid view.

- Creation of a new project & their stages.
- Creation of new tasks.
- Forecast the time for each task and assign them to employees.
- Correct those forecasts within the grid or the gantt view.

www.odoo.com/page/start10

Gantt View

- ✓ Set realistic timeframes
- ✓ Visible in case of overlap
- ✗ No indication of the amount of work
- ✗ Difficult to print

Grid View

- ✓ Multiple Group By
- ✓ Easy Encoding
- ✓ Clear view on the forecasted hours

Demonstration

Conclusion

Thank you.
