EXPERIENCE

Odoo Sales & eCommerce

Get paid easily with payment acquirers

Frederic Gilson • User Experience Coordinator

1. Introduction
2. What it does (demo)
3. Supported payment solutions
4. Other payment solutions
5. Conclusion

1. Introduction

Available for Odoo **eCommerce** (including Subscriptions & Events)
and Odoo **Sales** (Online Quotations)

Product		Quantity	Price
	Bose Mini Bluetooth Speaker Bose's smallest portable Bluetooth speaker	1.0	$ 247.00

Subtotal:	$ 247.00
Taxes:	$ 0.00
Total:	$ 247.00

Payment Methods:

- PayPal **Paypal**
- Authorize.Net **Authorize.Net**

Pay Now →

You will be redirected to the Paypal website after clicking on the payment button.

2. What it does

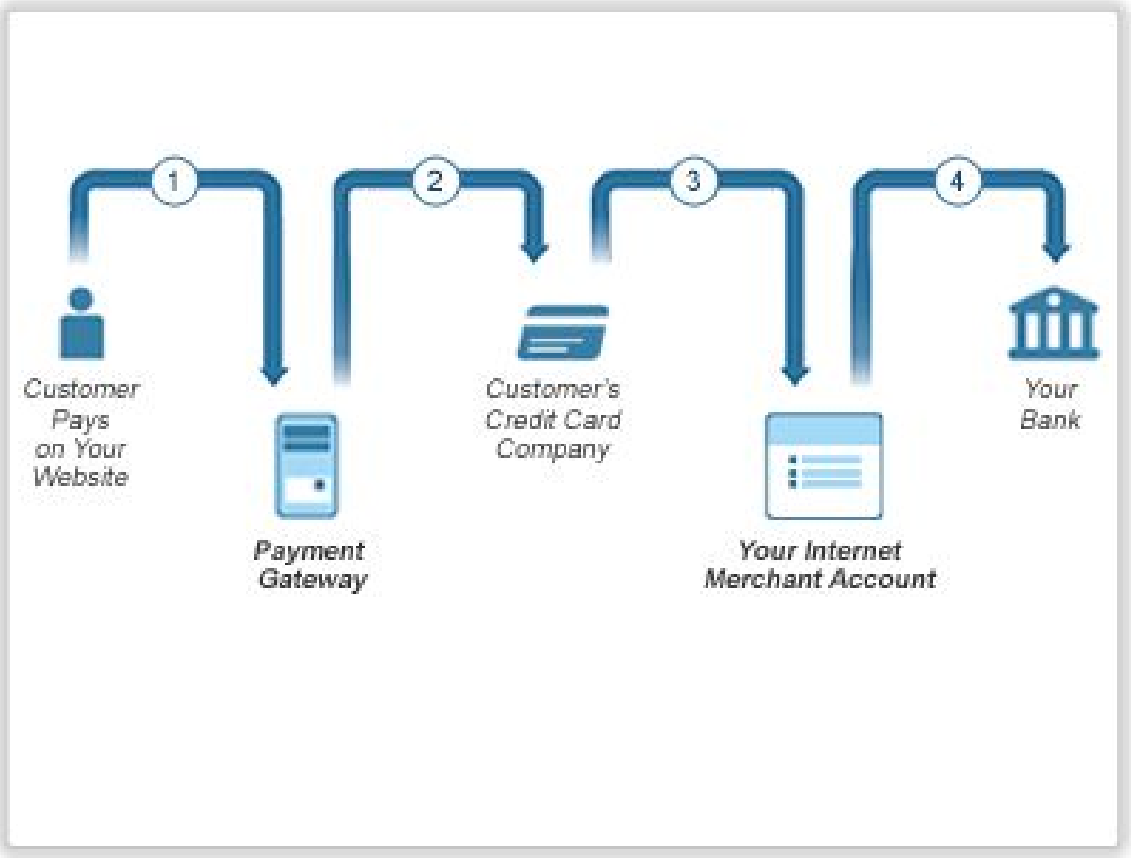
- **Redirect** to acquirers with payment data
- **Call back** with payment status
- **Store cards** to quickly pay next orders (tokenization)
- Authorize the payment **capture**
- Collect **recurring** amounts (with Subscription app)
- Create and auto-validate **invoices**

3. Supported payment solutions

	Redirect	Call Back	Card Storage	Capture	Recurring (subscriptions)
PayPal	Yes	Yes			
Authorize.Net	Yes	Yes	Yes	Yes	Yes
ingenico ePayments	Yes	Yes	Yes		Yes
PayUmoney	Yes	Yes			
stripe, worldline, adyen, SECURE PAYMENT WITH BUCKAROO	Yes	Yes			
Others	Yes*				

*Through technical mapping if S2S-compatible

3. Supported payment solutions



Some solutions are **gateways** (Authorize.net, etc.).
Some are **both gateways and processors** (Paypal, PayUMoney).

3. Supported payment solutions

Payment gateway solutions allow you
to choose your preferred payment processor.

See processors supported by Authorize.net
See processors supported by Ogone
See processors supported by Adyen

4. Other payment solutions

Odoo can send payment request to any

payment solution

5. Conclusion

- Supported solutions are mainstream
- Easy to deploy with any other solution
- Fully-automated process (from order to invoicing)
- Saved cards: ability to pay in one-click
