Productivity

Team Members

Assign members to this team so that they will see it in their dashboard. If no members are assigned, everyone will see this team.

Administrator Demo User

Assignment Method

How to assign newly created tickets to the right person.

Randomly

Channels

Email alias

Incoming emails create tickets.

Send emails to [support](#) to create tickets.

Live chat

Get in touch with you website visitors.

Test the livechat widget from this page:
⇒ http://171335-190-443a44.runbot9.odoo.com/im_livechat/support/3

Setup the [Support](#) channel to define auto-popup rules and geolocation filters.

Website Form

Submit tickets with an online form.

Submit an issue using this page:
⇒ </helpdesk/Support-1/submit>

API

Connect third party application and create tickets using web services.

⇒ [View documentation](#)

Performance

SLA Policies

Set up your Service Level Agreements to track performance.

[Configure SLA Policies](#)

Canned Responses

Predefined answers available in the message composer (e.g.: "hello")

[Configure Canned Responses](#)

Ratings

Allow your customers to easily rate your services.

No customer feedback yet.

Website Rating

Publish this team's ratings on your website.

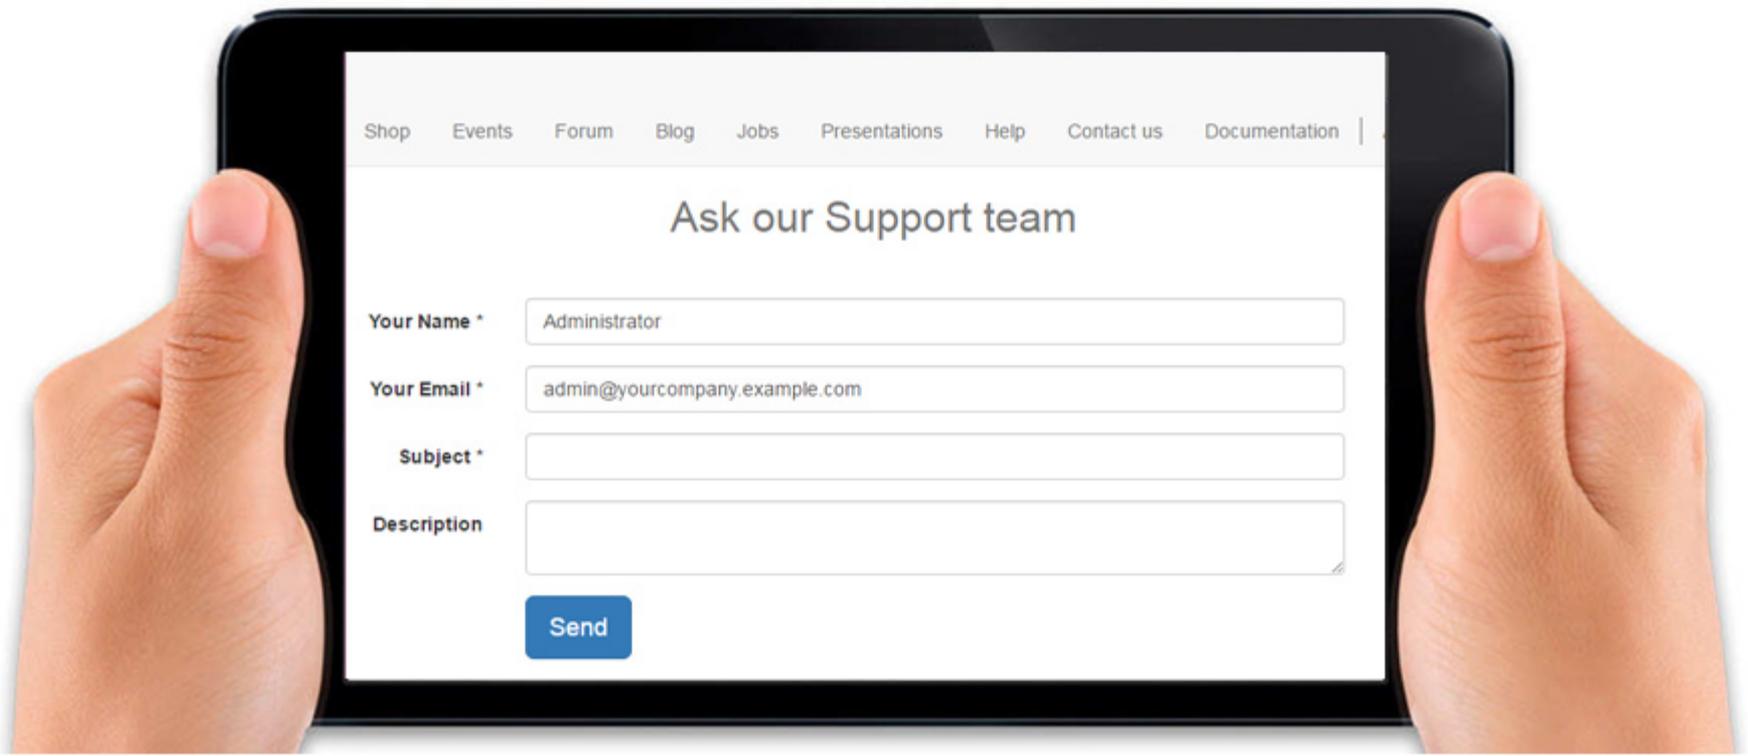

Demo

Conclusion

Odoo Helpdesk

Increase your customer's **satisfaction**
Improve your team's **productivity**

The image shows a tablet held by two hands, displaying a web form titled "Ask our Support team". The form is part of a website with a navigation menu at the top. The form fields are as follows:

- Your Name ***: Administrator
- Your Email ***: admin@yourcompany.example.com
- Subject ***: (empty)
- Description**: (empty)

A blue "Send" button is located at the bottom of the form.

Odoo HelpDesk is probably the
best integrated ticketing system
in town

— Future you

Odoo Helpdesk

Smart and accessible

Multiply the discussion channels with your client while simplifying communications with your collaborators, constantly improving your score through smart reporting
